## 1 About Me

I am a self-motivated and highly competent graphic designer with 25+ years of experience in printing and web design. **For example – was instrumental in the re-design of our company website which increased better usability for sales and customer's alike.**

## 2 Skills

- Illustrator (up to CC)
- Photoshop (up to CC)
- InDesign (up to CC)
- Dreamweaver (up to CC)
- iMovie
- WordPress (and other CMS)
- AgileCRM
- Platforms: Mac and PC

## 3 Responsibilities at a Glance

Preflight files for production via Prinergy Evo system - correct if needed  
Communicate with printing/die cutting/bindery to create optimal product  
Create mock ups for approval/production  
Create informational videos to illustrate product functionality  
Maintain web site via CMS & Dreamweaver

## 4 Experience

Present CONFIDENTIAL Wheaton, IL

I presently work for a corporation specializing in direct marketing pieces. Since I work in a company that has printing and manufacturing facilities on-site, I have an excellent background on creating a job from concept stage all the way through final product. I was hired as a production artist but in the years since I **have evolved into what our company needed most which was computer/web graphics. I took it upon myself to help our company grow by learning web design.**

## **4 Experience (continued)**

I was involved in the overhaul of our company website. We had an end-user problem for navigation and the functionality of our site. I stepped in and did principle photography and editing for our web page. **The result has increased web traffic and better usability for our sales department and customers.**

Recently I have been utilized to create print and on-line ads/e-blasts for our company. This opportunity has helped me flex my web skills further. **This helped with an increase in sales inquires on our products.** I created and maintain our youtube channel. Our main complaint from customers was that our static images did not convey how our products worked. **Once we created movies that showed our products “in action” it helped increase customers understanding of the functionality of our products.**

I am active on Lynda.com where I brush up on the latest web/graphic courses. I have also in the past been active on Teamtreehouse.com learning coding and a bit of computer programming.

## **5 Education**

**Associate Degree-Advertising and Design  
College of DuPage US-IL-Glen Ellyn**

**Certificate-Web Publishing  
College of DuPage US-IL-Glen Ellyn**

**Certificate-App Development  
Certificate of Completion in App Development**

## **6 Professional Affiliations**

I have an online store at CafePress.com. I enjoy creating fun and colorful T-shirts for myself and others. This is a great creative outlet for myself plus I have created T-shirts for co-workers and their charitable causes.

I also have a presence on Behance where I go to blow off creative steam.
